Italian Sports Localization & Writing Sample

Mauro Miguel Dómina · Spanish Native · Italian C1 · English B2

Profile

I am a native Spanish speaker from Argentina with C1-level Italian and B2 English. I lived in Italy for five years, which gave me strong familiarity with the language, culture and everyday expressions. I also have a long-standing connection with competitive sport and strong knowledge of Italian and international football. This sample was prepared specifically to demonstrate my ability to understand English sports content and localize it naturally for an Italian-speaking football audience.

English Source

The match was decided in the final minutes after an intense second half. The home side had controlled possession for long periods but struggled to create clear chances. With five minutes remaining, a quick counterattack opened the defense and the striker finished calmly inside the far post. The result keeps the team in contention for a European qualification spot.

Italian Localization

La partita si è decisa nei minuti finali, al termine di un secondo tempo molto intenso. La squadra di casa ha mantenuto a lungo il possesso del pallone, senza però riuscire a creare occasioni davvero pericolose. A cinque minuti dalla fine, un rapido contropiede ha sorpreso la difesa avversaria e l'attaccante ha concluso con freddezza, piazzando il pallone sul secondo palo. Il risultato permette alla squadra di restare pienamente in corsa per un posto nelle competizioni europee.

Localization Choices

Source concept	Localized choice	Reason
home side	squadra di casa	Natural football terminology in Italian.
clear chances	occasioni davvero pericolose	Idiomatic rendering rather than a literal translation.
inside the far post	sul secondo palo	Standard Italian football expression.
European qualification spot	un posto nelle competizioni europee	Natural phrasing suitable for general sports coverage.

Transparency Note

This document is a writing and localization sample prepared for application purposes. It is not presented as previous professional translation or localization work.
